- health
- healthcare science
- human resources
- legal
- maintenance, installation and repair
- management and administration
- manufacturing, processing and control
- media, broadcast and production
- onsite construction
- science

### Structure of a T Level

T Level courses will include the following compulsory elements:

- a technical qualification, which will include
- core theory, concepts and skills for an industry area
- specialist skills and knowledge for an occupation or career
- an industry placement with an employer
- a minimum standard in maths and English if students have not already achieved them

### Industry placements

Every T Level will include an industry placement with an employer focused on developing the practical and technical skills required for the occupation. These will last a minimum of 315 hours (approximately 45 days) but can last longer. Employers can offer industry placements as a block, day release or a mix of these, and can discuss sharing part of the placement with another employer if necessary.

Providers will support employers offering industry placements. This will include assistance with the necessary paperwork, a careful planning process and support with designing the industry placement.

The Education and Skills Funding Agency (ESFA) and National Apprenticeship Service (part of ESFA) will work with employers and providers on industry placements.

### **Grading and certification**

Students who complete their T Level will receive an overall grade of pass, merit, distinction or distinction\*. They will get a nationally recognised certificate which will show their overall grade and a breakdown of what they have achieved.

The T Level certificate will include:

- an overall grade for the T Level, shown as pass, merit, distinction or distinction\*
- a separate grade for the core component, using A\* to E
- a separate grade for each occupational specialism, shown as pass, merit or distinction

It will also include confirmation that the student has:

- met the minimum requirements for maths and English qualifications
- completed the industry placement
- met any additional mandatory requirements

A student's overall T Level grade will be worked out from the grades they achieved on the core component and the occupational specialism(s).

Students who do not pass all elements of their T Level will get a T Level statement of achievement which will show the elements they have completed.
